# WHAT ARE TEACHERS SAYING ABOUT THESE SUB PLANS?

★★★★★ Extremely satisfied

When I had to take several sick days unexpectedly, my assistant was able to use this resource to teach the class. The kids loved it...especially the color by number multiplication practice!

★★★★★ 5.0

Thank you so much! This gives me peace of mind knowing there is always a backup plan waiting if I have to take a day off!

★★★★★ 5.0

My students and sub loved these activities which makes me love them, too! Directions were easy to understand and the before prep was worth the time spent because my students were having so much fun they forgot to misbehave.

# FREQUENTLY ASKED QUESTIONS

1

**What ages are these sub plans best for?**

These are great for grades 3 and 4. They include multiplication and multistep math problems. The students also need to know parts of speech and plot.

2

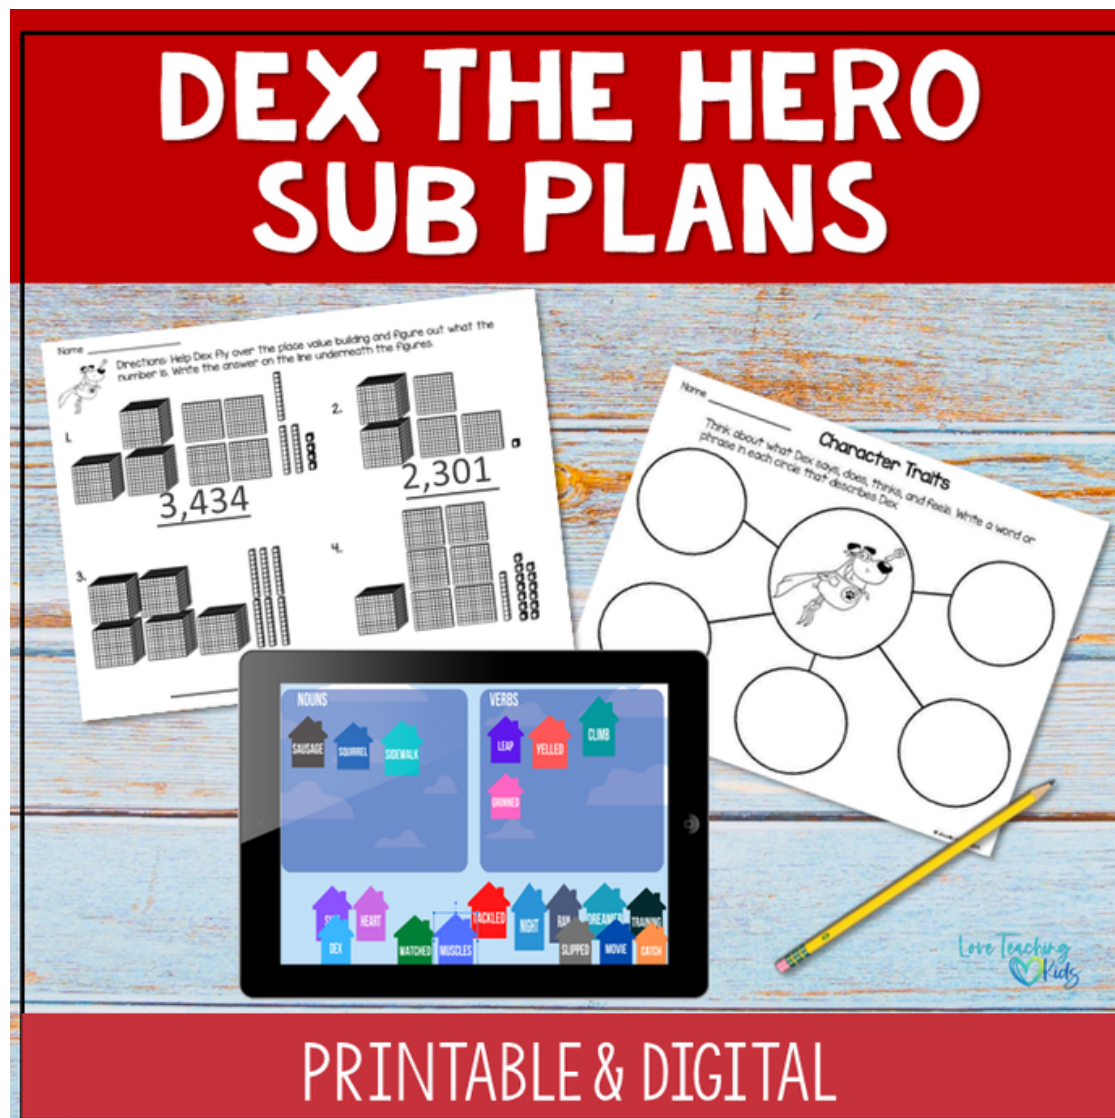

**How much prep work is needed?**

You print and put them in a folder for when there is an emergency or you can assign them to your Google classroom from home.
